## Steps:

1. Cut white card stock to 4 1/4" x 11" and create a top-fold card. Die cut two rectangle panels of white card stock – one stitched edge and one plain — and layer them. Cut a strip of patterned paper and create a stitched edge around three sides with the same stitched rectangle die. Attach to the layered panels.
2. Die cut both glass shapes from white card stock. Blend green ink on the top of the margarita glass and the negative insert. Blend gray ink on the stem of the glass and the entire martini glass. Cover the martini glass with a light layer of glitter.
3. Fill both shaker pouches with a mix of sequins and ice cubes. Seal the pouches with the inked negative pieces.
4. Arrange the glasses on the card front and attach with dimensional adhesive.
5. Stamp and heat emboss the sentiment onto black card stock and die cut using a fishtail strip. Attach with dimensional adhesive and adhere embellishments as desired.

## Design tips:

- Creating your shaker elements as separate elements rather than die cutting them into your card base provides more freedom in positioning them.
- When sponging color onto your die cuts, go slowly and gradually build the color — it's easy to add more color but hard to correct if you add too much initially.
